**Accenture**

Dear Sir/Ma'am,

I am writing to express my interest in the Associate Software Engineer position. I hold a BS in Information Technology from EARIST and bring hands-on experience in PHP, CodeIgniter, Laravel, MySQL, and full-stack web development. At NTEK Systems Inc., I built and deployed web apps and managed servers and databases efficiently.

During my internships and assistant roles, I contributed to real-world systems like evaluation, queuing, and inventory management platforms. My strong grasp of the software development life cycle, database design, and server deployment makes me a valuable candidate for your team.

I am eager to bring my skills, enthusiasm, and work ethic to support your engineering goals. Thank you for considering my application. I look forward to the opportunity to contribute.

Sincerely,

**Jake M. Napay**
